

# Our Plans For 2019-20

**These are the key things we would like to do to make St Bede's an even better place to be this year:**

1. Share our love for Jesus with everyone clearly by writing a new vision statement; help you to plan and lead Collective Worships; assess your RE work in a new way.
2. Make sure our curriculum is personal to our school and equips you with the knowledge, skills and cultural capital you need to succeed in life.
3. Help every single one of you to feel supported but also challenged so you all reach your full potential.
4. We would like our whole school community to respect God's beautiful world through our 'Eco School' award and are aiming to become a 'Green Flag Eco-School'. We also hope to gain the Artsmark Award.
5. Create an exciting Early Years environment where the youngest of you can learn both indoors and outdoors, with excellent resources.
