

Our Plans For 2018-19

These are the key things we would like to do to make St Bede's an even better place to be this year:

1. Share our love for Jesus with everyone clearly by writing a new vision statement and helping you to plan and lead Collective Worship.
2. Make sure all leaders in our school are the best they can possibly be and that all of our staff are happy.
3. Help every single one of you to feel supported and reach your full potential. One way we can do this is by encouraging you all to come to school on time, every day.
4. Help you to build confidence when reading both in school and at home so that you make good progress in this wonderful subject (#stbedesreads!) We also want you to gain lots of skills in other subjects, such as maths, science, art, PE and ICT.
5. Become a silver 'Rights Respecting School' and help you to respect the right of everyone in our school to an education. We will also respect God's beautiful world through our 'Eco School' award.
6. Create an exciting Early Years environment where the youngest of you can learn both indoors and outdoors.
